

OUR LITTLE ROCK

Board Treasurer

Chris Woodward

The Little Rock Pedestrian Show + The Root Cafe

I love Little Rock because of what it has given me. I have a community, a home, and a beautiful state to explore. In Little Rock, I feel like I've been given the opportunity to grow and prosper while being surrounded by high-quality people.

I think Little Rock can grow into a cultural and economic heart of the country. We are centrally located in the States, we have a great mix of southern culture and beautiful nature in every direction.

I bring first-hand experience to the Our Little Rock board. I operate in Little Rock without a car. I am a boots-on-the-ground pedestrian in the city and with that comes a unique perspective of the potential we have to improve.

As a part of Our Little Rock I want see a vision of a better Little Rock for all fulfilled. I hope to see Little Rock become safer, healthier, and better connected. I believe that if the efforts of Our Little Rock can be put to good effect, better local policy can be passed and our built environment can come to match our values of sustainability, equity, and stewardship.
