

# OUR LITTLE ROCK

## Board Member

### **Joan Diehl** **Age-Friendly Little Rock Commission**

I retired in December 2018 after working in the Healthcare industry for over 40 years. First, as a medical technologist working in hospital labs, then as the administrator of an allergy clinic and finally as a consultant to community health centers.

As I age, the work of livable and age-friendly communities has become more important to me. My main skills lie in organization and attention to detail.

By participating on this Board, I can increase my network of those interested in this work, bringing them together to gain more for our community while achieving some specific goals of this organization

I want to be a thought partner on the experience of others when it comes to transportation, medical, housing and get outside of my own lived experience.
